What We Offer
 Delivering more than just resources! We deliver human intellect that makes the difference.

Information Technology

Delivering Innovation at the intersection of BUSINESS + EXPERIENCE + TECHNOLOGY
 At VSB Tech, we provide Intelligent Consulting to our clients, for a wide range of requirements. With extensive experience in consulting and access to the latest technology platforms, we provide customized solutions.

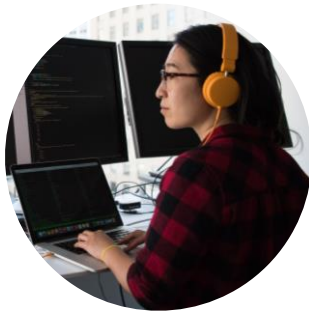

Pharma Clinical Research

VSB Tech specializes in offering value-focused clinical development functional services and innovative GxP technology solutions to global pharmaceutical, life sciences, and healthcare companies. Founded in 2015, we are providing scientific solutions by using highly configurable process-oriented software applications

DevOps & Application Maintenance

Allowing clients to focus internal resources on higher-value workloads by offloading and outsourcing ongoing maintenance of legacy applications. VSB Tech provides highly skilled & experienced resources to monitor, troubleshoot and enhancement client applications and systems.

Direct Hire

VSB Tech provides direct hire (permanent placement) services and recruits employees on behalf of its clients to fill permanent positions for technology, general, or hard-to-find skill sets across a wide breadth of job categories

Workforce Solutions

We provide ourselves on high quality and timely deliverables. Our proven workforce staffing solutions that deliver significant results. We have secured long-term partnerships with fortune 500 and Government Clients.
